Introducing LifeFuture™ cotton

Sedex

intertek
Total Quality. Assured.

First class quality for superior comfort

When it comes to offering the finest in cotton products, our commitment to quality sets us apart. Unlike carded cotton, a material that is widely used and common in the market, our LifeFuture™ Cotton uses 100% premium combed cotton that is exceptionally astounding. This marks a new level of comfort, durability and modern luxury with our meticulous creations of LifeFuture™.

1. Unparalleled Uniformity and Softness

What makes it stand out from the typical carded cotton is that our LifeFuture™ Cotton has perfect alignment between the fibers, creating a consistent and straight yarn that achieves superior uniformity. This intricate process produces an even and remarkably smooth texture. Your skin will indulge in the luxurious softness when touching the fabric.

2. Radiant Luster and Luminosity

Our commitment to excellence shines through in every thread. The process of combing removes short staple fibers and enhances the yarn's ability to reflect light, making it appear glossy and shiny. Get ready to be captivated with this shimmering quality of our LifeFuture™ Cotton pieces.

3. Better Durability and Longer Lasting

The combing process of our LifeFuture™ Cotton eliminates the unwanted short fibers, making it a robust longer lasting and highly durable fabric. It's time for you to cherish your beloved pieces that will remain at its top condition for a longer time.

4. Less Pilling for Better Appearance

Bid farewell to the woes of pilling and fuzziness. Our LifeFuture™ Cotton ensures that impurities and short fibers are removed in the process, significantly reducing the likelihood of loose threads and pilling on the fabric's surface. This guarantees an instant elevation for the overall product appearance.

5. Great Breathability for All-Day Comfort

The uniform alignment of the fibers in our LifeFuture™ Cotton promotes enhanced airflow, elevating moisture absorption and delivering a cooling effect that gives you all day comfort.

6. Resilient Against Shrinkage

Our LifeFuture™ Cotton is more stable than ever, thanks to its sturdy structure as a result of removal of impurities and smart alignment of fibers, the shrinkage caused by washing has been significantly mitigated compared to carded cotton. Now your favorite cotton pieces will shrink no more.

7. Hypoallergenic Luxury

Your wellbeing is our top priority. With the hypoallergenic properties of our LifeFuture™ Cotton, the fabric has the ability to remove potential allergens such as dusts and pollen, giving you a fabric surface that is gentle on the skin and unlikely to trigger allergies. Goodbye irritation, hello superior comfort!

8. Anti Carcinogenic Property

Our LifeFuture™ Cotton uses premium combed cotton that is free of carcinogenic agents including Azo Dye, undergoing rigorous testing and conforms to the highest safety standards and has also been certified by Intertek and SGS. We care about you and it makes perfect sense for us to put your well-being as our top priority.

This is our LifeFuture™ Cotton. Immerse yourself in a new world of luxuriously understated fabric that offers you nothing but the best quality, enduring styles and highest functionality.
